

Interfaith Devotional followed by

Business Constellation

Sunday, Feb 19th, 1:30-3:30 pm

This workshop introduces systems constellation as a means to address professional, career, financial, and organizational challenges.

How does a system support flow, profit and productivity? How does spirituality influence one's successes?

Possibilities:

- Examine the relationship between material wealth and spiritual wealth
- Look at invisible dynamics between employees, potential partners and contractors
- Clarify branding: names of business, workshops and projects
- Conduct market surveys
- Check dynamics of business locations
- Explore time lines for multiple tasks within a business
